

**Htc-1 temperature humidity meter manual**

**Continue**

Image not available forColor: To view this video download Flash Player Here are instructions for the HTC-1 clock / humidity and temperature digital LCD. Introduction I own two HTC-1 devices and it has helped me monitor my indoor surroundings. A while ago I lost the instructions, so I sat down and worked out most of the basics, which I've provided below: How to switch between Celsius (°C) and Fahrenheit (°F) On the back of the device, lift up the stand (support legs). Press the black button to switch between the different temperature scales. How to set the time and date Press the MODE button for two seconds until the seconds are blinking. Press the ADJ button to adjust, and then when ready press MODE again to switch to the next option. Once the time and date are set, press MODE to finish. How to set the alarm Press the MODE button to switch to the alarm time. Hold the MODE button until the minutes flash and use the ADJ button to select the minutes you require. Then press MODE again to select the hour option and use the ADJ button to choose the hour. When finished, press MODE to finalise. How to enable and disable the alarm Press the adjust button until both the audio symbol and 'Alarm' are shown above the time, and repeat the action to disable the alarm. How to turn the alarm off when it's sounding When the alarm makes a sound, press the MODE button once. Conclusion I really like the HTC-1 and my devices are currently being used in a bedroom and lounge. I am able to monitor the effectiveness of my actions, such as opening a window, closing a door and adjusting the boiler. I don't use the alarm function, but I do find the clock feature useful. I own a digital thermostat, which is in my hallway. I live in a flat and it's interesting to see the temperature differences between a bedroom, hallway and lounge. A cheap device, but it has made a huge difference. Description Reviews (0) Related Products (2) This is a simple but effective way of monitoring your temperature and humidity simultaneously indoors, memory of high and low readings which is very handy. Also features a clock with date/month. This really has a nice sized display making it very easy to view and adjust. Description: Display temperature, humidity and time simultaneously Memory of MAX & MIN measuring value 12-hour / 24-hour displaying system selectable °C / ° F unit selectable Integral-hour alarm function Alarm function Clock & Calendar function (month and date ) Desk-top placing or Wall Hanging Feature: Temperature range: -50~ + 70 °C ( 14 ~ 122 ° F ) Humidity range: 10%~99%RH Resolution: Temperature: 0.1 °C ( 0.1° F ) Humidity: 1%RH Accuracy: Temperature :± 1 °C ( 1.8 ° F ) Humidity :± 5 RH ( 40% ~ 80% ) Power supply: 1.5V ( AAA size ) X 1 NOT SUPPLIED Product dimension: 100 x 100 x 21.5mm Storage condition: -20 °C ~60 °C , 20~80%RH Package Included: 1 x Temperature & Humidity Meter (Battery not included) 1 x English Manual Image not available forColor: To view this video download Flash Player Security policy Delivery policy Return policy Eagletech Regular price P159.00 PHP Regular price Sale price P159.00 PHP Unit price / per Sale Sold out Specification: Measuring Temperature range: Indoor -10°C~+50°C (+14°F~+122°F)Outdoor -50°C~+70°C (-58°F~+158°F) Measuring Humidity range: 10%~90% RH Accuracy: Temperature ±1°C (1.8°F) Humidity ± 5% RH.
